do do Royal, of England, 385		Black Weevil, (see Weevil.) 61
A. B. queries of, relative to bone dust and lime on wheat land 70		Blackbury Syrup, recipe to make, 330
Allen, R. L. on preparation of corn for the European Market 153		Blunt, T. E. on Swine 73
Alumina, description of, by Dr. Lee 41		Bommer, method of Manure making, 73
American Farmer, notices of the, 16 48 73 80		Bones, to prepare, with oil of vitriol, 14, 21, 25, 325
81 111 139 144 176 210 216 289		Bone Dust, experiments with, by D. M. Wharton, 69
291 320 321 322 329 349 352 353 385		do for wheat land, 70; for turnips, 378
do a new year's present to its patrons 209		do for buckwheat, 170
do increased circulation of the 352		do for Pelargoniums, 234
do Premiums by the publisher of 384		do ploughed in with guano, by D. M. W. 90
do to Patrons and Exchanges of 384		do method of reducing 387
do close of the volume of 384		Book Farming, by J. L. N. 8
American Institute, discussion at the, on dairy husbandry, 22; on Southern Agriculture & Salt 38		Botany, Agricultural, Dr Darlington's 81
American Journal of Ag. & Science, 289		Boyle, Col. a cheap paint by 355
Ammoniacal Liquor, as a manure 6		Brady, S. large yield of Corn raised by 290
do Manures for Wheat 345		Brand, J. C. on Hussey's Reaper, 84
Animals, Cole's work on diseases of 221		Bread, a simple method to make 26
An Ilquiner, on preparation of ground for corn 351		do an improvement in making 51
A Small Farmer, on Soaks for corn 366		Breeding, influence of the male in 156
Apricot Trees, on a disease in 282		Brewer, Dr on the formation of clubs 247
Apples without seed or core 327		do address of, to Medley's Dist. Soc'y 292
do do by L. C. D. 350		Breadstuffs, shipment of to Europe 356
Apple trees, management of 3		Brown, Simon, visit of to Col Capron 78
do root grafting of 51		Brower, Isaac, on the time for cutting Timber, 220
do constituents of 333		Brussels Sprouts, culture of, 58
do periodical failure of 319		Buckwheat, culture of, 2, 98, 170
Architecture, cottages of the Tudor and Gothic style 17 18		do as a fertilizer 138
Ashes, pot, of commerce, enquiry by A. Subscriber 277		Budding, time and method of, 291
Ashes, coal, for top-dressing of meadows, 16, 60		Buist's work on Gardening, notice of 321
do a plan recommended for keeping 361		Butman, H. on the Maine potato crop, 237
do the value of, 49; for land near salt water, 49		Butter, great yield of, in N. Y. 5
do substitute for, on land 134		do making of 121
do analysis of leached and unleached, 212		C.
do on the use of, 309; do. by R. N. Milburn, 250, 313, 380; do by Dr. Muse, 279		C. on Farming in Baltimore and Harford Co. 169
Askew, P. account of his crop of wheat, 53		Cabbages, cultivation of, 27 91 121 295 323 358
Asparagus, culture of 297		Cabbages, to pickle 223
A Subscriber of Owings' Mills, reply to, 261		Cakes, to make corn meal 267
do replies to, relative to shell mould, 359		Camellias, culture of, by J. Cains 27
		do and Azaleas, culture of 286
		Calvert, Chas. B. on improvement of lands, and culture of root crops 82
		do liberal proposition by 223 320
		do W. C. on horse powers 252
		Canker Worm, remedy for the 346
		Capron, Col. on Renovation of Worn-out Lands 9 93 164
		do description of farm of, by S. Brown 78
		do Portraits of his stock, 224-5—Pedigrees 263
		do of do 263
		Carmichael, Wm. on the steam plough, &c. 60

Caroline Co. Md., agriculture of	321	Corn, the Alsop, enquiry for	323
Carrots, great yield of 5 ; do culture of	297 308 355	Corn Sheller, Whitman's premium	189
Castrating, method of, by D. G. W.	361	Cottage Residences, description of	17 18 19
Cattle, live and dead weight of, compared	214	Cows, Milch, best food for, for butter	5
do by Patuxent Planter	282	do Management of 35 98 130 163 224 241 330	
do care of, in winter	224	do Lapland, description of the	72
do to determine the live weight of	350	do necessity of sheds for	93 99
Catalogues of Agricultural Implements, &c.	263	do cooked food for, value of	189
Cauliflowers, culture of	91 389	Cramp, to prevent the	62
Celery, cultivation of	58 259 297 358	Crops, abroad, prospect of 1 16 20 99 146 162 241	
Cement, for outside of houses	26	do at home, do 20 21 33 125 211 221 348	
do for floors, 123 ; for glass	143	Cultivator, description of, by Montgomery Farmer 13	
Cemeteries, trees for	15	do by J. P. C. Peter,	74
Charles Co. Agr. So. (see <i>Agr. Soc.</i> )		Custis, W. H. B. on the horse-power	365
Charcoal, for agricultural purposes	70	Cud, remedy for loss of	263
Cheese, making of	56 120	D.	
Cherries, best kinds	300	Dahlia, cultivation of the	365
Cherry Trees, pruning of	3	Dairy, management of the, 22; making of cheese, 56,	
Chemistry, applied to agriculture	157	120 ; of butter, 121	
Chemist, State Agr. appointment,	385	Darlington, Dr., work of, on Agricultural Botany, 81	
Childs, J. D. on the action of plaster,	375	do discourse of, upon Agriculture,	144
Chisolm, R. on horse powers, &c.	225	do on the use of lime	274
Christian, S. F. merino sheep of	327	Davis, A. B. description of a fence, by	52
Churning, rationale of	19	do Report of, on Rotation of crops,	264
Cisterns, construction of	364	D. G. W. on winter ploughing, and use of salt, 291	
Clay Soils, winter ploughing of	244	do on care of ashes, 361 ; recipe for a purge	
Clover, seeding of	80 244 273	for a horse by, 361 ; a plan for castrating, 361 ;	
do harvesting of, 319 ; by J. L. Noel	374	work shop for farmers, 377 ; wheat upon	
do cultivation of 28 169 339 ; in Belgium	60	corn land, by 389	
do Bird's foot	71 138	Debate on the profits of farming	74
